

Next Generation Digital Commission

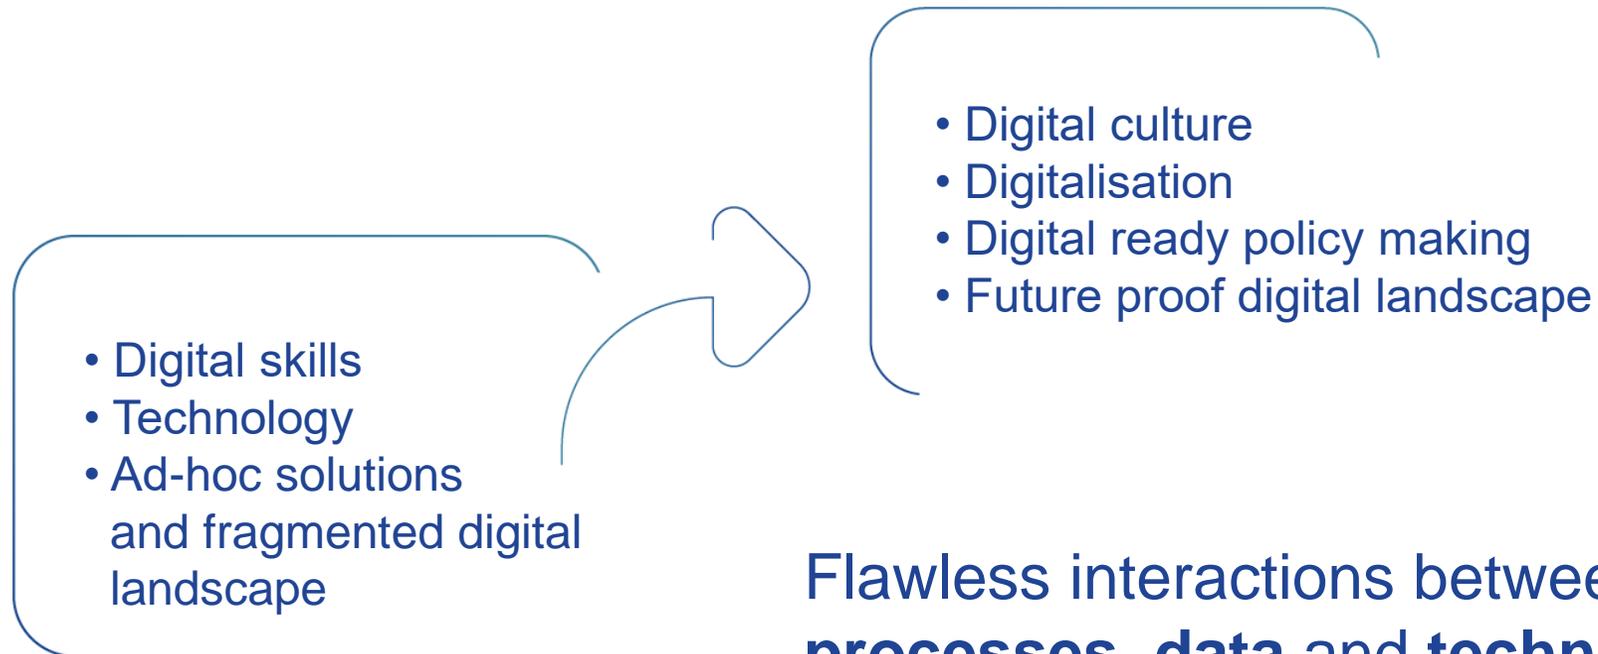

New Corporate Digital Strategy

Aldo LAUDI

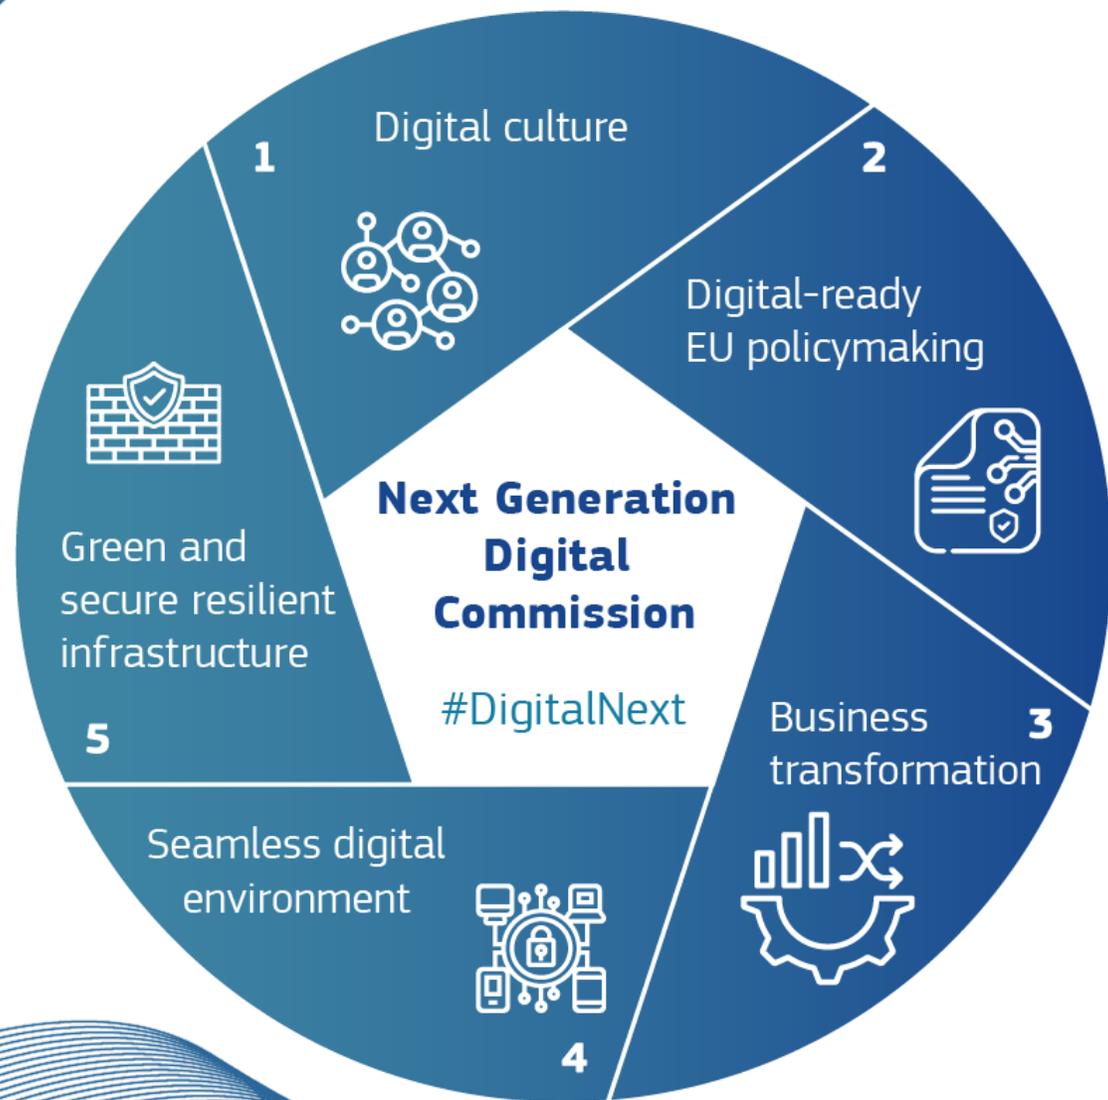

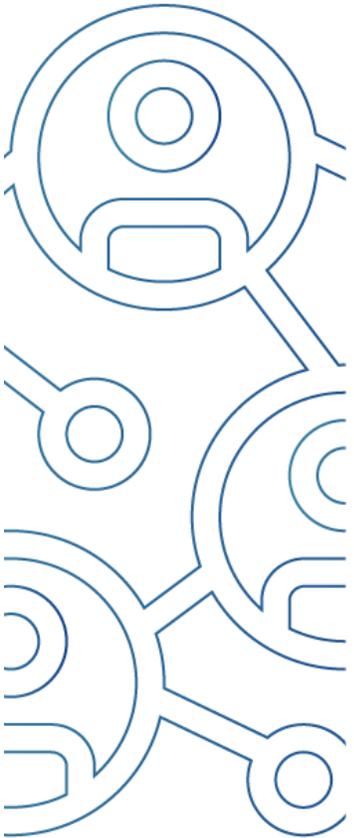

Advancing in the digital transformation journey

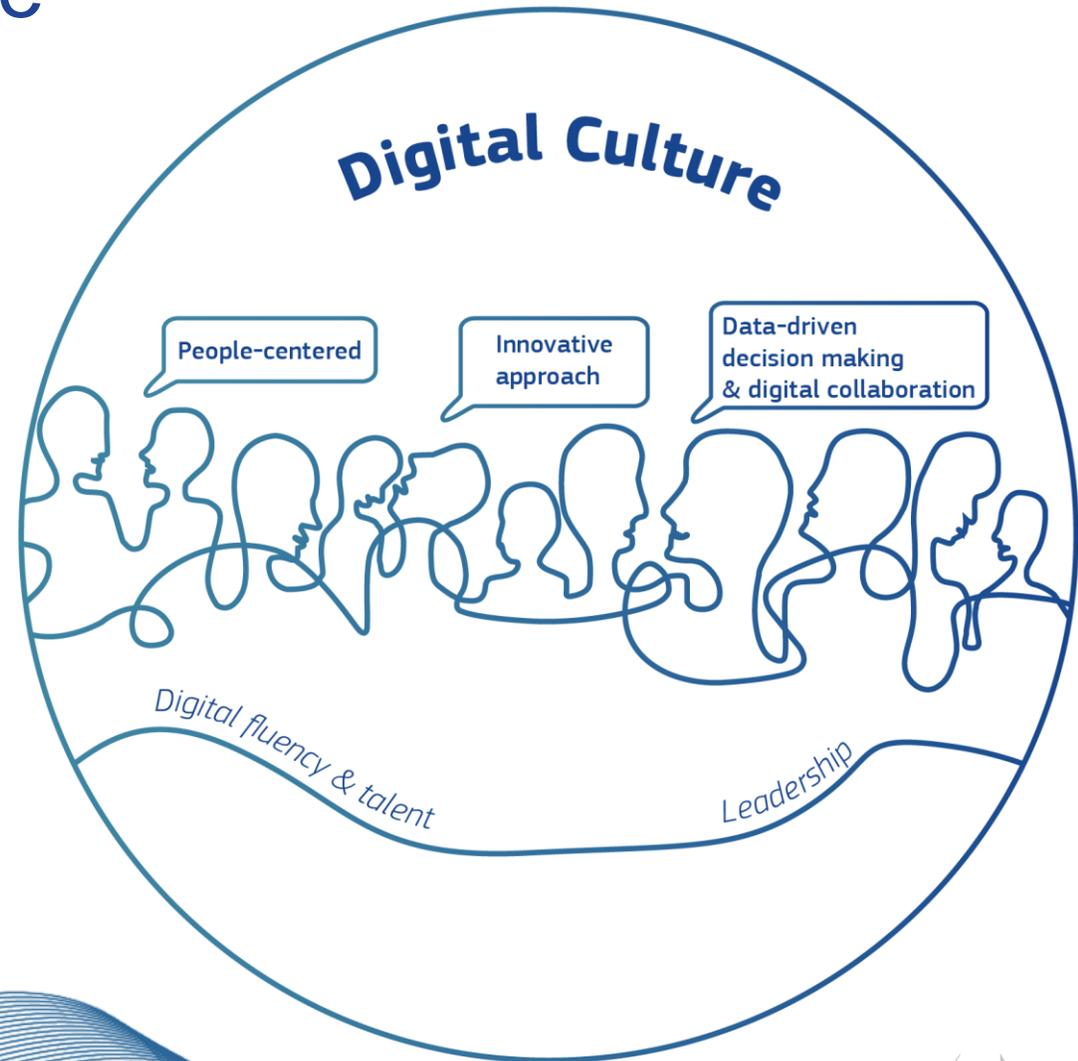

Flawless interactions between **people**, **processes**, **data** and **technology** enabled by clear corporate governance arrangements.

| SO1 - Foster a digital culture

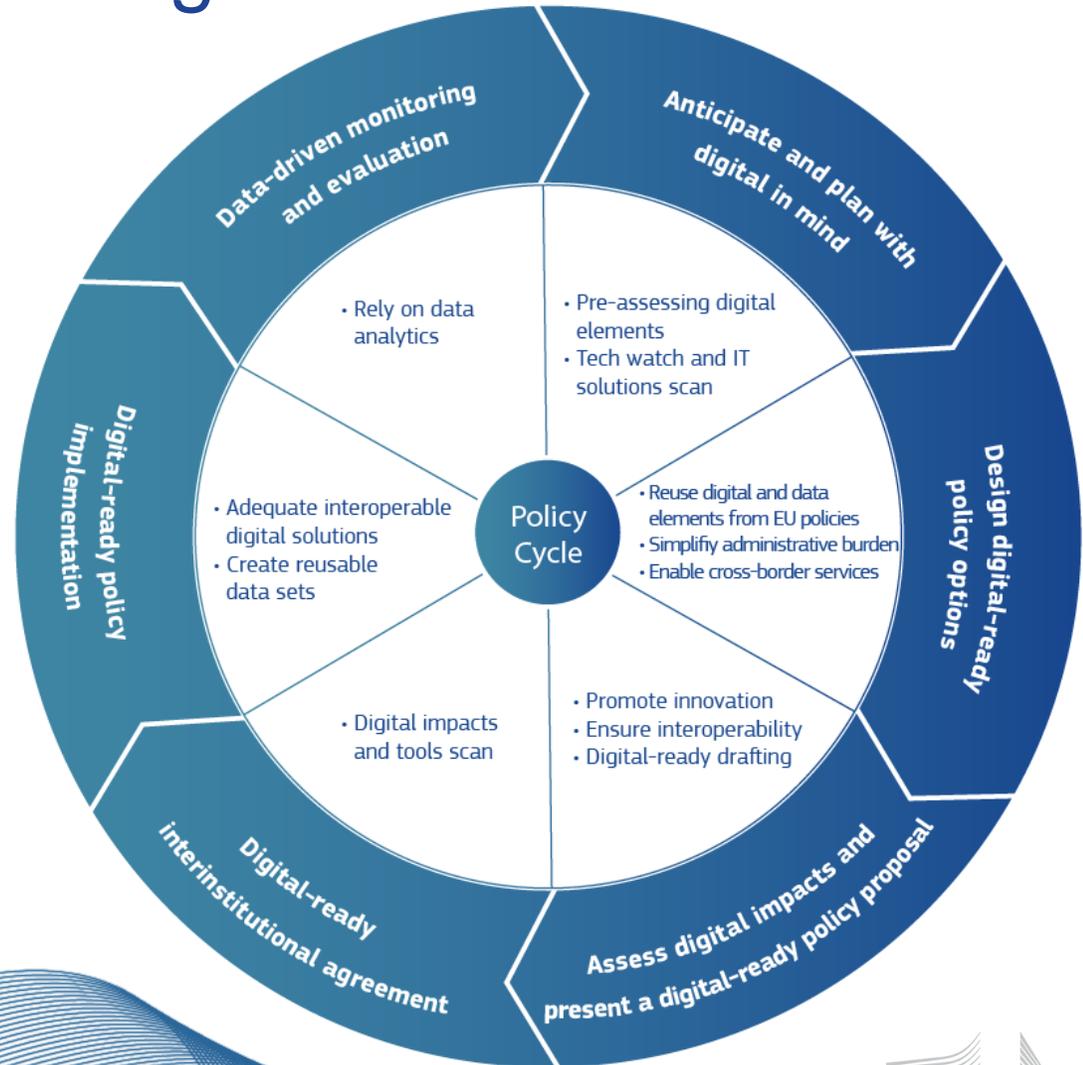

"A digitally mature Commission will progressively empower all staff to think digital first, to be people-centred, collaborative, innovative, agile, and supporting digital transformation"

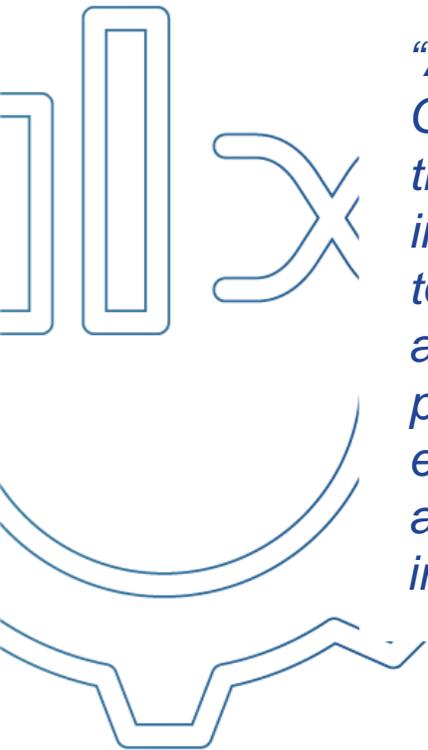

SO2 - Digital ready policymaking

“A digitally mature Commission will embed digital dimensions across the different stages of the EU policy cycle”

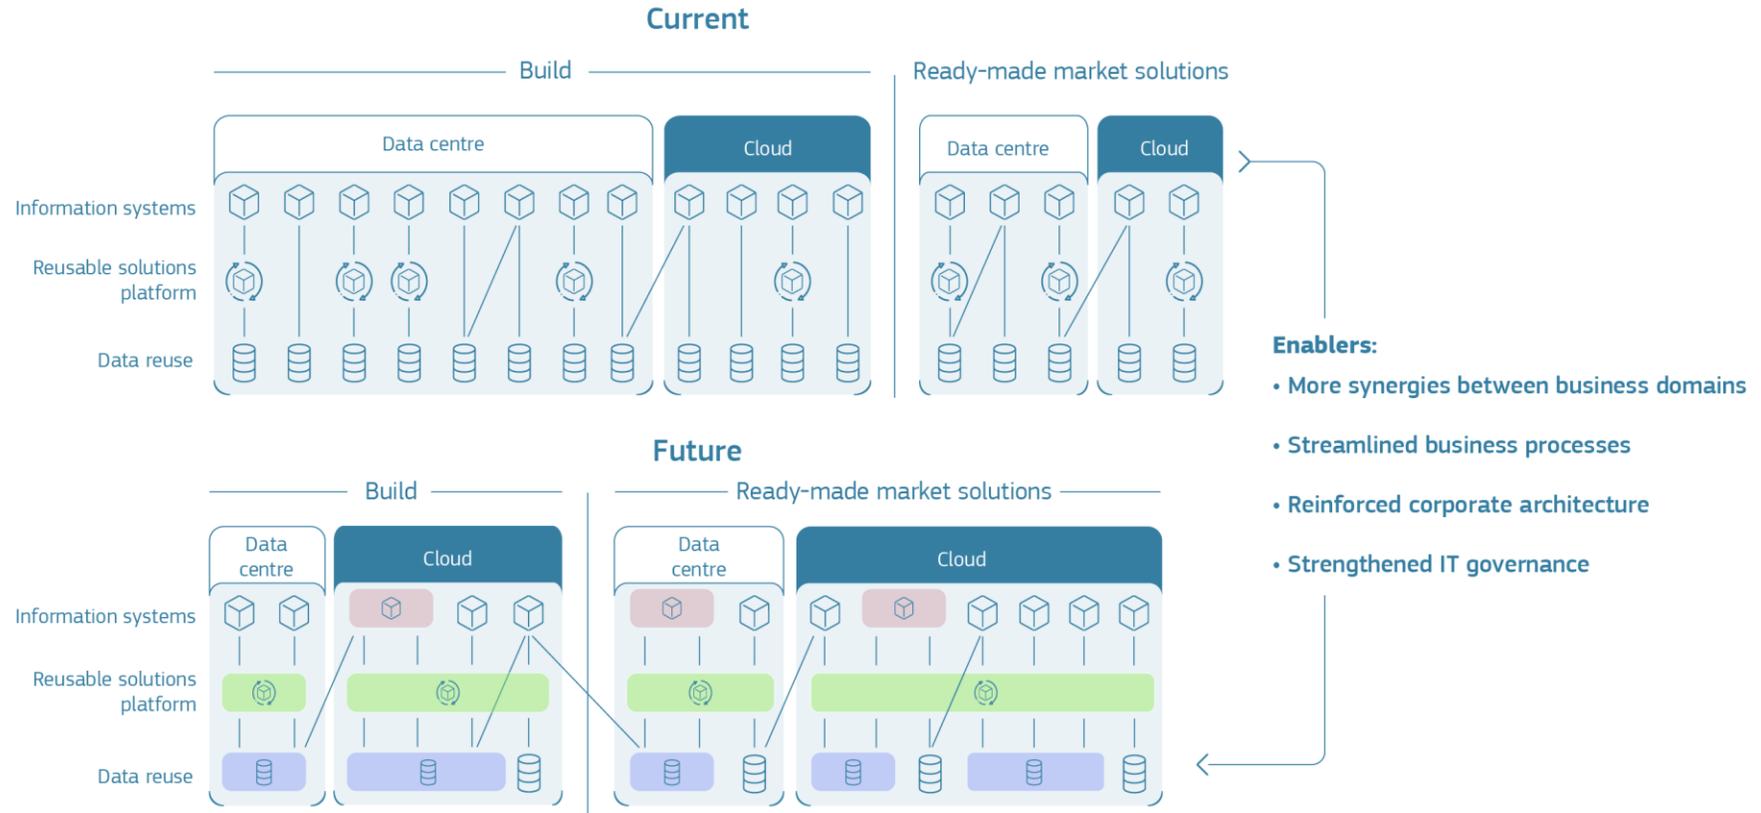

SO3 - Enable business transformation

“A digitally mature Commission will harness the benefits of data and innovative technologies to redesign its business and administrative processes, thereby enhancing its efficiency and developing integrated EU policies”

- Digital as a key enabler to **business transformation**;
- Requirements: Process redesign / Mandate for experimentation / Partnerships
- The **use of Innovative technologies to**
 - support an integrated EU data ecosystem
 - simplify, optimise, modernise businesses
- **Data ecosystem** and common tools and services,
- Multi-annual **digital transformation roadmaps** with early IT involvement and aligned to budget cycle

SO4 - Seamless digital environment

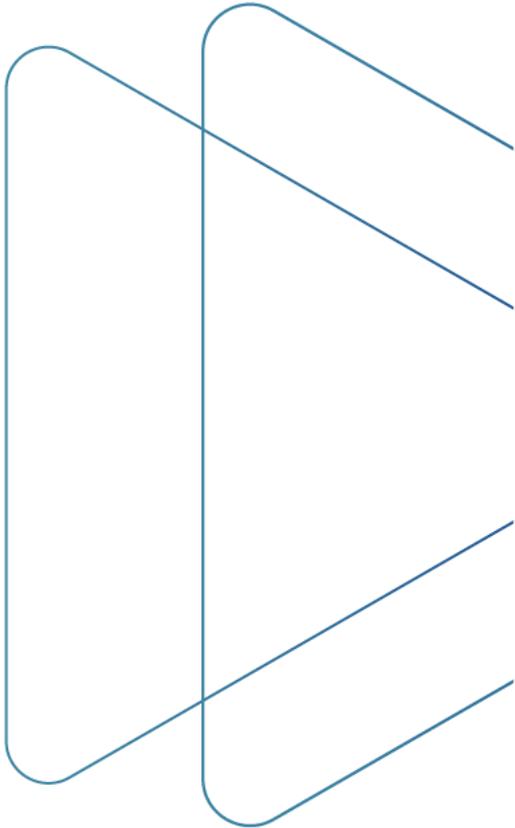

| SO5 - Secure and resilient infrastructure

“A digitally mature Commission will have a solid infrastructure composed of a mix of both public and private cloud environments, a network that provides a fast, stable and secure connection and will play a leading role in infrastructure services provision to EU Institutions”

- **Cloud-first** based infrastructure supported by data centres
- Support new **flexible ways of working**
- Commission as a trusted inter-institutional **infrastructure provider**

| Enablers

- Digital leadership
- Enhanced governance
- Corporate Architecture
- Stronger Mandates for digital transformation actors
- Digital Transformation-aware budget allocation

Thank you!
